Dear Ms. Tysiak,

The women and men, predominantly Catholic, gathered in the European Network Church on the Move (EN/RE) are horrified by the violence and extent of the persecution and threats, campaigns of calumny and slandering you are ceaselessly undergoing since you had the courage of invoking the judicial processes of your country then to the European Human Rights Court. You are now being compared to Nazi criminals who committed crimes against humanity.

It is a humanitarian duty for us to express publicly our support in the new fight in which you have the courage to engage in Court against dominant religious and political forces calling on the spirit of Catholicism, and so of the Gospel.

Justice must be done to you, this time too. Your daily fight for years and years has been that of the women from Poland but also of how many women from other countries in Europe the world over.

Together with NGOs accredited variously to the UNO economic and social Committee and the Council of Europe: Catholics for Choice (CFC), International
Planned Parenthood Federation-European Network (IPPF-EN) and a number of other organisations of various convictions, the European Network Church on the Move, had at the time when you had filed a suit to the European Human Rights Court, expressed its support with a motion which was made known to the Commissioner for Human Rights to the Council of Europe and the Apostolic Nuncio.

We are determined not to forget you.

Please remain confident of our solidarity,

On behalf of the European Network Church on the Move
François Becker    Hugo Castelli    Hubert Tournès
Co-secretaries

Copy:
The Apostolic Nuncio, the President of the Bishops Conference
Catholics for Choice (CFC), International Planned Parenthood Federation-European Network (IPPF-EN)

The European Network Church on the Move is a spontaneous convergence of organisations — associations, communautés, informal groups and networks — of Christians from Europe in majority Catholic sharing:
- the vision of a Church prophetic, ecumenical, supporting, loving which never excludes nor discriminates and follows in the steps of Jesus the liberator and
- the will to work, respecting cultural and religious diversity, for peace, justice, freedom, human rights and democracy, including in the Catholic Church (Declaration of rights and freedoms in the Catholic Church, European Network 1994).
It declares itself an integral part of the Catholic Church enjoying the freedom of association under the law of the Catholic Church (Canon 215).
